

2 Port DVI Cable KVM Switch with Audio and Remote Switch DV2302

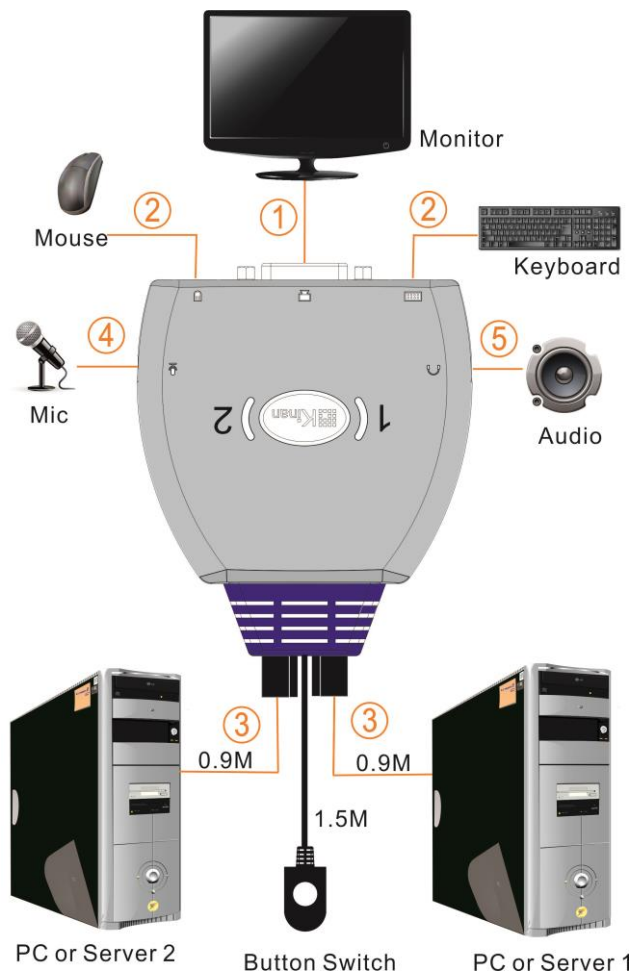

Overview

The DV2302 2-Port DVI Cable KVM Switch with Audio and Remote Switch Control lets you control two DVI computers with a single monitor, keyboard, mouse and audio peripheral set. Featured with integrated cables, the DV2302 2-Port DVI Cable KVM Switch can be connected directly to your system. The switch features a remote push-button on a 1.5 meter (5ft) integrated cable that can be placed in an easily accessible location, as well as keyboard hot-keys and mouse for switching between systems. The DV2302 supports resolution up to 1920x1200@60Hz.

Product Features

- One KVM console controls 2 USB DVI computers
- Independent switching of KVM and Audio focus
- Multiplatform support – Windows, Linux, Mac, Unix
- Computer selection via remote switch, mouse or hotkeys
- Supports hot-plugging
- Superior video quality –1920x1200@60Hz
